

ELEVATING OUR PROFESSION

Through Credentialization,
Continued Education,
and Networking

WHY BECOME A MEMBER?

The ISCM delivers incredible value, year on year, to its many members worldwide. For an annual fee, members have access to an exceptional calendar of education, networking and social events, bringing the global catastrophe risk community together. Furthermore, the ISCM is unique in its aim to professionalize this important part of the global insurance industry through a recognized credentials and career support program.

MARKET-LEADING EDUCATION

Industry events for the industry by the industry

- No one understands better the catastrophe risk issues important to the insurance industry.
- ISCM education events are designed by leading industry practitioners drawing on their experience, knowledge and network to assemble the annual global education calendar.
- Events are designed to meet today's work schedules with a mix of on-line, hybrid & face-to-face delivery.

A GROWING NETWORK

Meet your peers to network, get advice or just connect

- The ISCM is a unique global community.
- It now has hundreds of members across multiple countries who are available to network, advise and discuss industry and career topics.
- No other community serves the global catastrophe risk industry in this way.

PROFESSIONAL CAREER SUPPORT

Tools, exams & structure to turbo-charge your career through professional certification

- The ISCM has partnered with the CAS Institute (iCAS) to create a set of courses and exams uniquely focused on catastrophe risk career progression.
- These work hand-in-hand with the ISCM's extensive experience-based archive of events and recordings.
- Professionalize your career with structured goals and objectives to propel you to the front.

WHO WE ARE

- Established in 2006, the ISCM strives to promote catastrophe, hazard, and risk management professionals within re/insurance and risk management industries.
- Provide an unbiased medium for collaboration, encourage professionalism and quality, and encourage networking within the ISCM.
- Develop educational programs and offer credentialization opportunities.
- We act as a source of information regarding recent developments in science, technology, and catastrophe management.

VOLUNTEERING TO SUPPORT YOUR PEERS

Built on a spirit of volunteering & giving back

- The ISCM is set up and run by industry volunteers who give their time to support their peers and make valuable contributions to ISCM activities.
- Volunteering is a very rewarding way to meet experienced colleagues and also to continue your own career learning journey.

OUR MISSION

The ISCM is organized around:

- Understanding current catastrophe management issues.
- Education in the field of Catastrophe Risk Management.
- Exchange of ideas through networking among catastrophe managers.
